

MUNDANE ASTROLOGY

The Astrology of the World We Live In

The term, 'Mundane Astrology' comes from the Latin word 'mundus', meaning 'the world.'

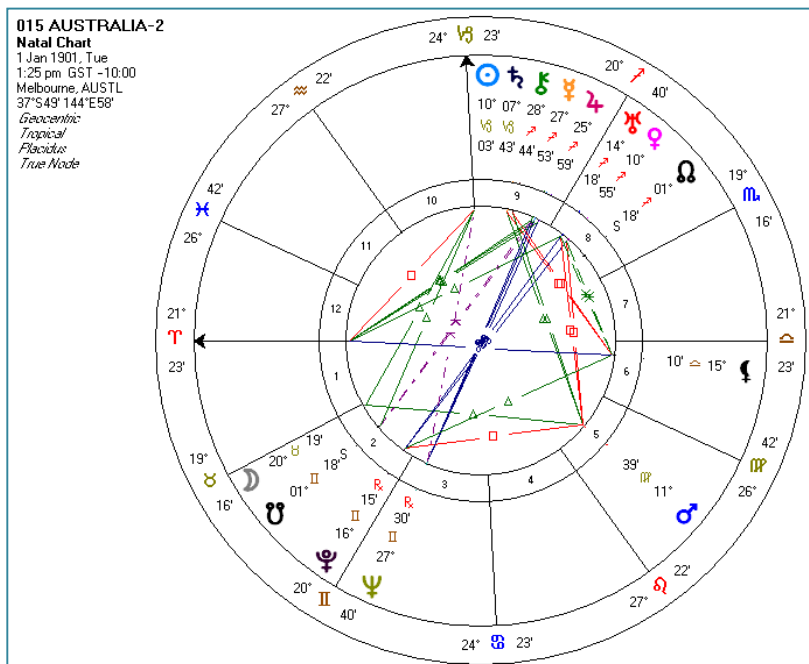

It includes the astrology of the past, present and future of:

- Nations, States and Cities
- Politics, Elections, Rebellions, Coups etc
 - World Leaders and Figureheads
 - World Events such as the Olympics
 - Extreme Natural and Weather Events

Nations have horoscopes just as individual do and these horoscopes represent the character of the people and the political, social, economic, health and education circumstances of the nation. We can also study these charts to understand current events and to forecast future trends.

In the workshop, we'll explore:

- the meanings of the **planets, signs and houses** in Mundane charts
- charts of **Australia, USA, China, and other countries**, including their leaders.
 - the charts of recent major events such as the **Haiti and Chile quakes**.
 - implications for the world leading **up to 2012 and beyond**

Saturday 27th March
9am to 4pm
\$90 ~ byo lunch

6/7 Glorious Way, Forest Lake
